New Members Get There First Round In

Ben Bagust and Robbie Gifford got their first ever competition rounds in last weekend. While a stroke competition wasn't the best time to play their first round both said they really enjoyed it with Ben managing 77 nett and Robbie 74 nett. Although there were a few donations of golf balls to the water on the way round

What's Coming Up

11th August – Men's Stableford, Women's Stableford Challenge

Handiskins Rd 4!

6th September-

It's Finally Here!!!

Under Armour is finally in the shop! Under Armour set the standard for quality golf apparel around the world, their shirts and pants are leading the pack in sales so why not come down and try some on!

What's The Right Ball For You?

Come in today and have a discussion with Jason or Bailey about what the right ball is for you especially with Titleist finalising their new line of golf balls and whole

The Scramble

"The Scramble" as its now known (was the Holden Scramble) has been postponed to potentially next February with a new structure and sponsor hopefully not far away. Full story at

Scramble

Golf Travels with the Trainee

Bailey recently returned from the Windsor Trainee Match with his first pay check of this FY of \$3.53 as he came in tied 13th out of 52. Three late bogeys cost him some serious \$\$\$ but still his +3 was solid given the conditions.

Handiskins Update

Rod Emerson has opened up a solid lead after round 3 of the Handiskins. With scores of 42, 34, 42 he leads the pack by 10 on 119 points. John Martin consistent as always is in second place then followed by Paul Morris on 106 and Steve Hottes rounds out the top 4 on 103. John Kellahan and Matt Arnold are in striking range!

Tip of the Day

With recent attendance at Golf Performance Putt Lab Sydney a statistic from the PGA Tour must be highlighted. The average height on the Tour is 6ft 1" but the average putter length is only 33" yet most club golfers have a standard 35" putter... There is one main thing to think about at set up when putting and that's the positioning of your elbows, if they are badly bent you will struggle with putting consistency. A model set up is shown to the right and that's how you should be trying to set up over the ball with your elbows in a pretty straight position to help maintain consistency and create a nice isosceles triangle between your 2 elbows and the bottom of the putter grip.
